Global Research | Dr. William Makis

Blood clots have been a major problem with all COVID-19 vaccines, including Pfizer and Moderna.

I have written several substack articles about those who have died from

- [April 30, 2023](#) – Blood clots – pulmonary emboli in young women – Pfizer

Subscribe

- April 11, 2023 – Strokes are skyrocketing in young people
- March 6, 2023 – Blood clots – young people having amputations

All COVID-19 vaccines are thrombogenic (cause blood clots): Pfizer, Moderna, AstraZeneca, J&J. The latter two were taken off the market for causing blood clots.

WHO's VigiAccess database lists 5.1 million adverse reactions to COVID-19 vaccines, including: 29751 Pulmonary Embolism, 20251 thrombosis, 20017 DVT, 18077 cerebrovascular accident, 9695 MI, 5308 Ischemic stroke, 4807 cerebral infarction, 3255 SVT, 2495 cerebral venous sinus thrombosis, 2204 venous thrombosis limb

That's over 100,000 reported blood clot events in one adverse event reporting system. Apply an under-reporting factor of 10x or 100x and that means there are between 1 million and 10 million COVID-19 vaccinated people with blood clots.

Some of them fatal.

Those who have survived blood clots after COVID-19 vaccines are lucky to be alive but most have had a very difficult course.

June 23, 2023 – 55 year old NFL Hall of Famer and Colorado Buffaloes head coach Deion Sanders has struggled with blood clots in legs that resulted in 2 toes amputated. He recently had surgery to remove clots and avoid further amputation ([click here](#))

July 1, 2023 – 45 yo actor Tyler Labine is recovering from a stomach ache that **“turns out to be a potentially fatal blood clot in your intestines and liver and you have to spend the next 3 days in the hospital trying not to die”** (he was fully COVID-19 vaccinated)

June 6, 2023 – Elizabethton, Tennessee – Larry Bowers (works at James H. Quillen VA Medical Center) had clots removed from his leg. He is fully COVID-19 vaccinated and believes they were caused by COVID-19, not the vaccines.

May 25, 2023 – Hartford, CT – Kristen Ann Mallinson, a business major, had Pfizer COVID-19 mRNA vaccines with 3 boosters. She was hospitalized 11 days with blood clots in lungs and heart, with a 6” blood clot in the heart (picture below). She regrets getting vaccines ([click here](#))

May 21, 2022 – Brisbane, Australia – 26 yo Dani Duchatel died suddenly in front of her family while playing cards after dinner. **Doctors believe a blood clot from a recent operation on her leg travelled to her lung causing a pulmonary embolism. Nonsense.** ([click here](#))

Feb. 1, 2023 – Willington, UK – 20 year old footballer Levi Dewey went to hospital with flu symptoms, then suffered severe sepsis and had to have both legs amputated after suffering multiple organ failure ([click here](#))

Jan. 1, 2023 – UK Piano Teacher Julianna Bransden suffered catastrophic injuries after COVID-19 vaccines ([click here](#))

Julianna was fully COVID-19 vaccinated. On Dec. 23, 2022 she developed flu like symptoms and on Jan. 1, 2023 she had **two cardiac arrests, went into septic shock, multiple systemic organ failure, needing full life support.**

She was diagnosed with **sepsis resulting from an aggressive form of pneumonia**. After weeks of fighting, she had to undergo **surgery to amputate both of her legs below the knee and will lose most of her fingers**.

Oct. 24, 2022 – 29 year old Krystina Pacheco suffered toxic shock syndrome after giving birth to her daughter on Oct. 24, 2022, resulting in the amputation of her hands and feet days later.

Dec. 2021 – 40 year old Twitter user regrets getting COVID-19 vaccines ([click here](#))

Nov. 2021 – Bryant, AR – Brandy Byrd-Brazeale, a 5th grade teacher took two Pfizer mRNA vaccines hesitantly and 2 months later developed DVT in her right leg which ultimately led to a pulmonary embolism in her right lung ([click here](#))

April 2021 – Sherri Whiting is a licensed realtor. A friend of hers got a Moderna shot and 2 weeks later they thought she was having a stroke. It was a blood clot that went from her elbow to her shoulder ([click here](#))
